

# SHEHARYAR KHAN

## FULL STACK ENGINEER | REACT & REACT NATIVE

Lahore, Pakistan | +92 312 7816690 | [sheharyark017@gmail.com](mailto:sheharyark017@gmail.com)  
[Portfolio](#) | [LinkedIn](#)

### PROFILE

Full Stack Engineer with 5+ years delivering React, Next.js, React Native, and Expo products. I lead frontend delivery across web and mobile, connect interfaces to reliable services, and help teams ship secure, maintainable experiences through clear technical decisions and code review.

### TECHNICAL SKILLS

**Web:** React, Next.js App Router, TypeScript, JavaScript, Tailwind CSS, shadcn/ui, Radix UI, Framer Motion, SSR/ISR

**Mobile:** React Native, Expo, Expo Router, Tamagui, gluestack-ui, NativeWind, Reanimated, iOS and Android

**State & backend:** Redux Toolkit, RTK Query, Next.js Server Actions and backend, Node.js, Express, REST, GraphQL, PostgreSQL, MongoDB, Prisma, Redis

**Security & delivery:** AWS Cognito, JWT, MFA, RBAC, GitHub Actions, Vercel, Amplify, Cypress, CI/CD, code reviews

### PROFESSIONAL EXPERIENCE

#### Folium AI

July 2025 - Present

##### Senior Software Engineer

- Lead frontend delivery for web and mobile products, translating product requirements into modular React, Next.js, TypeScript, and React Native architecture.
- Own implementation quality, performance, reusable patterns, authentication flows, and secure data handling across product features.
- Mentor developers, review code, plan technical work, and set frontend standards and team-level engineering direction.

#### Cyber Evangelists

June 2024 - July 2025

##### Senior Software Engineer

- Built high-traffic React applications with reusable components, SEO improvements, responsive behavior, and cross-browser consistency.
- Introduced RTK Query patterns for REST APIs, caching, and asynchronous state, reducing redundant network requests by 40%.

#### Bitsclan IT Solutions

Nov 2022 - May 2024

##### Software Engineer

- Delivered full-stack React and Node.js features, connecting relational data and REST APIs to responsive interfaces; contributed to mobile-first initiatives.

#### Inkhorn Solutions

Feb 2021 - Oct 2022

##### Front-End Developer

- Built pixel-accurate responsive components and integrated REST services across client applications.

# SELECTED WORK

Project names open the corresponding case study in my portfolio.

## PROJECTS

---

### [Billwell](#) | Medical bill analysis & dispute | Web + mobile

- Built onboarding, case management, document, and chat workflows across Next.js and React Native/Expo.
- Developed iOS and Android features with Expo Router, Redux Toolkit, secure storage, camera/image workflows, and PDF experiences.
- Implemented AWS Cognito authentication spanning Server Actions, API routes, and mobile, including MFA, token refresh, protected sessions, rate limiting, and audit logging.

### [Human Resource Portal](#) | Multi-tenant HR platform

- Engineered a Turborepo-based platform for shift scheduling, employee lifecycle, timesheets, leave approvals, and interactive organization charts using Next.js, React Flow, and TanStack Table.
- Built data-rich interfaces with Redux Toolkit, Tailwind CSS, Radix UI, shadcn/ui, and Recharts.

### U.S. County education & youth-support platforms | [Money Talks](#) / [SeedFunds](#) / [Foster Ferret](#)

- Contributed role-based React and Next.js experiences for students, teachers, administrators, youth, caregivers, organizations, and vendors across a shared Turborepo architecture.
- Built reusable learning, lesson reflection, dashboard, onboarding, engagement, enrollment, and caregiver workflows.
- Delivered React Native and Expo mobile experiences for SeedFunds and Foster Ferret, covering authenticated journeys, navigation, API integration, state management, and performance.

### [Attack Insights](#) | Security web application

- Developed Next.js workflows for domain and IP vulnerability scanning, DNS TXT-record ownership verification, scan management, and actionable findings.
- Improved reliability with SSR, cached data access, and reusable dashboard patterns for complex security information.

## EDUCATION & DEVELOPMENT

---

**BS Computer Science** - Virtual University of Pakistan (ongoing)

**Full Stack Development & Soft Skills Fellowship** - Jadu (five months)

**Selected courses:** React.js, JavaScript, SQL & Database Design, Front-End Web Development
